MEMORANDUM

From: Dave Rupp, UT Division of Water Quality
To: Affected BLM & DOGM Personnel
Date: December 21, 1998
Subject: Various Mining Projects
DWQ Inventory File Nos. 66-68

We have reviewed copies of the NOI for the subject mines received over the last quarter. Diversion of storm water runoff before contact with waste rock and ore is recommended. It does not appear that these operations, will have any water quality impacts. Any further mineral processing operations or expansion of mining will need to be reviewed. If you have any questions or further information on these items, please contact me at 801-538-6067.
